Surely, if Ithaca is a college town that part which was formerly its business section is about to close its doors and climb the steep hill leading to the university.

climb the steep hill leading to the university.

There is a reason, a big, fundamental reason, for all this, and a study of conditions leads to the conclusion that a new spirit has taken hold of Cornell and an athletic spirit at that.

Fow there is no reason for anyone opposed to athletics to get excited over this, else the truth will be told. Today nearly everybody at Cornell is interested in sport to the extent of participating in it. And the students are not football mad at that. Yester-

A Profitable Investment

Right Here, In Your Own State

The automobile industry, in less than ten years, has grown from almost obscurity to the third largest industry in the United States. Its cash dividends paid to stockholders are greater than the cash dividends paid by any other industry of like capitalization.

But the BIG profits have been earned by companies manufacturing moderate-priced cars.

It is not an uncommon thing for such companies to double and treble their initial capital through the payment of stock dividends, and many are now returning to stockholders, on the basis of their ORIGINAL investment, from 25% to 75% annually in cash dividends.

The time to purchase stock in an automobile company is at the beginningwhen the price is low.

Such an opportunity is presented now in the Syndicate Underwriting of the Treasury Stock of the Sterling Automobile Manufacturing Company, which Company is producing, right here in your own State, a standardized, electricallyequipped pleasure car, known as the Ams-Sterling, to sell at from \$825 to \$845, and also a half-ton delivery wagon.

This Company is headed by Charles M. Ams, President of the Max Ams Machine Company of Bridgeport, and is backed by over fifty of the most prominent manufacturers and business men in the State of Connecticut.

Come and see the Ams-Sterling car, direct from the Automobile Show, Grand Central Palace, New York, now being exhibited in New London, with headquarters at the Crocker House, from 9 a. a. m. to 9 p. m. Then, if you are interested, you will be given an opportunity to participate in the Syndicate Underwriting, (prior to application for listing the stock of the New York Curb), at a price which should yield you very substantial returns on your investment.

The Sterling Automobile Manufacturing Company is not accepting individual orders for deliveries of Ams-Sterling cars at this time. The Company is oversold and has declined orders from exporters and dealers for over 6,000 cars.

New York, Feb. 5.—Far from caus-ing dismay or even hesitation, the break in relations between the Unitgeneral Frederick E. Smith in his opening statement last week.

Mrs. Emeline Pankhurst, the suffragette leader, was present seeking an opportunity to make a public denial of alleged reports that the women defendants in the case were members of or workers in behalf of the Women's Social and Political Union or sther suffrage societies.
